

WEBINAR INVITATION

Off-Grid and Edge-of-Grid Photovoltaic Systems:

The South African Context

Presented by IEA PVPS Task 18 in cooperation with SANEDI

About IEA PVPS

The IEA Photovoltaic Power Systems Programme (PVPS) is one of the collaborative R&D Agreements established within the IEA and, since its establishment in 1993, the PVPS participants have been conducting a variety of joint projects in the application of photovoltaic conversion of solar energy into electricity.

About Task 18

The focus of PVPS Task 18 is off-grid electrical systems and edge-of-grid electrical systems which include photovoltaics. This webinar will present technical solutions with a focus on energy security, investment returns and national benefits.

Audience

The webinar is aimed at a range of stakeholders in the South African energy sector, including government, industry, commercial and private sectors.

The webinar will include:

- An overview of some recent Task 18 research outputs
- Case studies
- Discussion and Q&A regarding the South African context

Date: June 14 from 10:00-11:30 SAST
