3. Scope Of Works/Technical Specifications

3.1 Project Background

The 12L Tax incentive programme encourages businesses to implement energy efficiency savings by allowing a tax deduction of 95c/kWh saved on energy consumption. The Incentive was promulgated on 1 November 2013 and is claimable until December 2025. It allows for all energy carriers, except renewable energy, which can be claimed under the 12B tax incentive.

Companies that want to claim a 12L allowance, have to measure their energy consumption in kWh equivalent over a period of 12 months. The results of this implementation/assessment period are then compared to 12 months of baseline measurement. Both the baseline measurement and savings are measured and verified by a measurement and verification (M&V) professional assigned by a SANAS-accredited M&V body.

SANEDI's role

According to the 12L Tax Incentives regulation, SANEDI is responsible to:

- Appoint suitably qualified persons to consider the reports submitted.
- Consider, keep and maintain all reports submitted by taxpayers claiming the allowance.
- Issue taxpayers with certificates containing the relevant information.
- Create and maintain a database of all issued certificates.
- Provide the Minister and the SARS Commissioner with access to the reports and to the 12L Tax Incentives database.

Before issuing an energy-savings certificate, SANEDI must be satisfied that the information contained in the application reports is accurate and:

- Complies with the South African National Standard "SANS50010:2018: Measurement and Verification of Energy Savings" as published by the South African Bureau of Standards (SAB) Standard Division;
- Is an accurate reflection of the energy-efficiency savings for which the taxpayer is claiming a deduction during the year of assessment; and
- Complies with the 12L Tax Incentive regulation.

12L Tax Incentive Participants

The regulation that introduced the 12L Tax Incentive falls under the National Treasury (NT) while the South African Revenue Service (SARS) implement the Tax Incentive claims from successful applicants. The 12L Tax Incentive Team at SANEDI interacts with the Department of Mineral Resources and Energy (DMRE) as the shareholder of SANEDI. SANAS accredited Measurement and Verification bodies are responsible for the independent technical assessment of energy efficiency savings. Other players include ESCOs and the expert panellists contracted by SANEDI to evaluate baseline and performance assessment reports. SANEDI plays an adjudication role in the whole process.

The purpose of this project is to procure a service provider to develop a Stakeholder Engagement Strategy, and an accompanying implementation plan for the period 2023 to 2025. The successful service provider will be expected to execute the Stakeholder Engagement Strategy and manage all stakeholder engagement related activities on behalf of SANEDI for a period of three years. All activities to be documented and a transfer of knowledge and skills to SANEDI's 12L Team is required by SANEDI. The contract for this work is expected to run for three (3) years and should include a suitable monitoring and evaluation process that is clearly defined and auditable.
